CONSERVATIVE OR LIBERAL, RIGHT OR LEFT...

Elon Musk is not on your side!

TECH BILLIONAIRES ARE WORKING TO DISMANTLE DEMOCRACY!

They claim DOGE will make government more efficient, but in reality, Elon and his team are cutting vital services and restructuring the U.S. government to enrich themselves. They're stripping away our rights and money–DOGE cuts are robbing you.

Musk, Bezos, Zuckerberg, and others follow Curtis Yarvin's anti-democratic ideology, aiming to replace democracy with autocratic rule by an "elite" few. They want to govern the U.S. like a corporation.

The Musk administration is bypassing the Constitution, slashing national programs–many investigating his companies–as an act of retribution, not efficiency. Some of the programs already targeted for cuts are:

Social Security
Medicare and Medicaid
Department of Education
Veterans Services
National Park Service
US Weather Service / NOAA
Department of Housing and Urban Development
